

TopLine

Operating column

The TopLine operating column is a multifunctional aluminum post for outdoor use. It can be equipped with several OctoLine operating units. The inside of the column is prepared for installation of equipment. The back of the column can be completely removed for easy access to all equipment.

- Column in 3 mm aluminum
- Available in 3 standard heights: 1.2 for cars, 1.6 for pedestrians or 2.2 m for trucks
- Standard depth of 20 or 32 cm (inside depth 194 or 314 mm)
- Locked rear access
- Welded construction
- Base plate is fixed to the underground with expansion bolts or threaded rods
- Finished in grey (RAL 7030) or orange (RAL 2000) powder coating. Other colours on request
- Splash proof
- Optional built-in lighting

Base dimensions: 320 x 200 or 320 x 320 mm

The information and data given are typical for the equipment described. However any individual item is subject to change without any notice.
