

# CAR PARK OPTIMISATION

SME & BUSINESS CENTERS

**ALPHATRONICS**

innovators in access technology

# GET MORE OUT OF YOUR PARKING

As a business, you have to deal with several parking issues.

Employees, visitors, contractors and suppliers want smooth accessibility.

Depending on location, size and specific circumstances, there are many solutions to optimise your parking.

- **LPR:** Easy access based on whitelisted (known) license plates.
- **All-in-one solution:** Parking strategy, EV Charging, reservation, invoicing...  
One package for your complete parking management.
- **Daily rental of parking spaces:** E.g. during events.
- **Monthly rental of parking spaces:**  
Make excess parking spaces available for surrounding businesses or residents.
- **Payment parking:** Make your parking available to external users outside office hours.
- **Reservation:** Let your staff, customers/visitors reserve their parking space.
- **Parking space counting:** Visual display of number of available parking spaces.
- **EV-Charging:** Several charging points with reservation and monitoring to optimise availability.
- **CCTV:** Perimeter surveillance through automatic real-time analysis and processing of video images (Video Content Analysis).

## IOT

Our devices are monitored online using our Cloud platform **Aliot**.

There, we collect data on performance and identify potential problems.

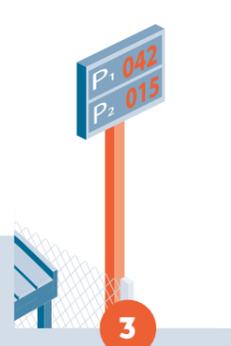

**AI-based maintenance** is essential to minimise unplanned downtime.

**PARKING BARRIERS**  
with LPR and operating columns  
with info display and intercom

**DIGITAL SIGNAGE**  
Multilingual  
SHE-Comm  
Parking space counting

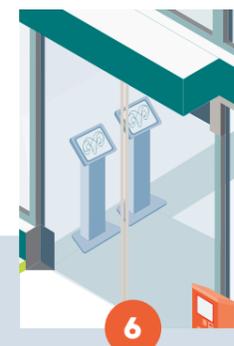

**LEDBOARD**  
Number of available  
parking spaces  
per parking

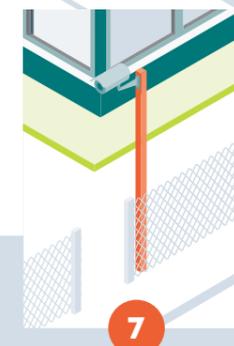

**EV-CHARGING**  
with presence detection

**PAYMENT TERMINAL**  
cashless payment

**SIGN UP COLUMN**

**CCTV**

**TRAFFIC LIGHTS**  
Red/Green

**VEHICLE DETECTION**  
Safety loops

**TRAFFIC ISLANDS**

## TAILOR-MADE IN BELGIUM

Alphatronics is a **manufacturer** of customised perimeter security solutions with the flexibility to adapt security needs to a specific situation.

In-house development and production, modularly designed to integrate with other business processes. It is in our DNA to **innovate** and in doing so, we always deliver the highest quality.

## SOFTWARE INTEGRATION

We feature a **very accessible RESTfull API**. This enables the integration of Alphatronics-supplied hardware devices and a third-party software solution.

## INSTALLATION AND SERVICE

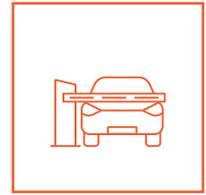

With more than **35 years of experience** in installation and service, we offer the expertise for perfect integration of your entire system.

A maintenance contract guarantees that the system will always be up and running.

The helpdesk with professional and fast service is always ready for support.
